As we approach the start of hurricane season, we just want to share a few friendly reminders with you. If you plan to be away from your site for any period of time, be sure to secure all of your belongings. Do not leave items outside of your RV. Even a summer thunderstorm can destroy an RV awning! The hurricane season begins June 1st and runs through November 30. Have a plan for your family in the event of an emergency or evacuation. The buildings here at Compass RV Resort are not considered shelters. The St Johns County Emergency Management website www.sjcemergencymanagement.com has the most accurate, up to date information for planning and during an actual event.
