

On Thursday, May 6th between the hours of 10am-3pm we will be shutting off water to the entire resort (our laundry and washrooms, as well) for our bi-annual preventative water pump maintenance. We advise you to please make necessary preparations for the water shut off as well as restoration of the water supply when it is turned back on.

We thank you for your patience and cooperation. If you have any further questions or concerns, please don't hesitate to contact us at (805) 467-2100 or vines@suncommunities.com.
